| Study/report name:   |       |
| Study/report area:   |       |
| Project description: |       |

Is this project included in Mississippi Gulf Coast 2040 Long Range Transportation Plan?  YES  NO

**MPO TECHNICAL REPORT** is used to document and prepare a project for funding allocation. It is based on the findings of a previous study including but not limited to MPO planning or MPO Studies (described below).

|   |  |
|---|--|
| Review planning recommendations                 | <input type="checkbox"/> YES <input type="checkbox"/> NO |
| Identify issues (ROW, utilities, encroachments) | <input type="checkbox"/> YES <input type="checkbox"/> NO |
| Topographic survey                              | <input type="checkbox"/> YES <input type="checkbox"/> NO |
| Develop conceptual design                       | <input type="checkbox"/> YES <input type="checkbox"/> NO |
| Develop cost estimates                          | <input type="checkbox"/> YES <input type="checkbox"/> NO |
| Written report of findings                      | <input type="checkbox"/> YES <input type="checkbox"/> NO |
| Other:  |  |

**MPO STUDIES** provide a comprehensive analysis used to develop recommendations where a broad idea has been proposed. This includes the evaluation of options that meet mobility, environmental and community needs by addressing challenges early to maximize the benefits of a project.

|   |  |
|---|--|
| Identify purpose and need   | <input type="checkbox"/> YES <input type="checkbox"/> NO |
| Traffic and accident data collection and evaluation                               | <input type="checkbox"/> YES <input type="checkbox"/> NO |
| Land use and demographics data collection and consideration                       | <input type="checkbox"/> YES <input type="checkbox"/> NO |
| Identify issues (ROW, utilities, encroachments)                                   | <input type="checkbox"/> YES <input type="checkbox"/> NO |
| Identify existing conditions and deficiencies (freight, congestion, safety, etc.) | <input type="checkbox"/> YES <input type="checkbox"/> NO |
| Analyze future traffic and identify future needs                                  | <input type="checkbox"/> YES <input type="checkbox"/> NO |
| Review existing plans   | <input type="checkbox"/> YES <input type="checkbox"/> NO |
| Host steering committee meetings of stakeholders                                  | <input type="checkbox"/> YES <input type="checkbox"/> NO |
| Alternative development and analysis  | <input type="checkbox"/> YES <input type="checkbox"/> NO |
| Topographic survey  | <input type="checkbox"/> YES <input type="checkbox"/> NO |
| Environmental screening   | <input type="checkbox"/> YES <input type="checkbox"/> NO |
| Develop conceptual design   | <input type="checkbox"/> YES <input type="checkbox"/> NO |
| Develop cost estimates  | <input type="checkbox"/> YES <input type="checkbox"/> NO |
| Public review and public meeting ( <i>Targeted outreach if necessary</i> )        | <input type="checkbox"/> YES <input type="checkbox"/> NO |
| Written report of findings  | <input type="checkbox"/> YES <input type="checkbox"/> NO |
| Other:  |  |

**PROJECT COST:** Federal: \_\_\_\_\_ Local: \_\_\_\_\_ Total: \_\_\_\_\_
